SpotSkim
INSPECT · INVENTORY · DOCUMENT

DATASHEET

Every card device, inspected and on the record.

SpotSkim walks store staff through a physical inspection of each card device on their phone in under a minute, then keeps the inventory, history and evidence your assessor asks for under PCI DSS requirement 9.5 (9.9 before PCI DSS v4).

for a guided inspection	saved on every inspection	users, locations and inspections

What requirement 9.5 asks, and how SpotSkim answers

REQUIREMENT	WHAT IT ASKS	SPOTSKIM
9.5.1.1	Keep an up-to-date list of every point-of-interaction (POI) device, with make, model, location and serial number.	A visual inventory of every terminal, card swipe, fuel dispenser and kiosk, updated by each inspection.
9.5.1.2	Inspect device surfaces periodically for tampering and substitution.	A guided inspection on the inspector's phone, with reference photos to compare against and a record of who, when and where.
9.5.1.3	Train staff to recognize tampering and substitution and to report it.	Your policy and training delivered in the app, with each inspector's acknowledgment recorded.

Features

Inventory

A visual record of every credit card acceptance device: terminals, external card swipes, automated fuel dispensers, kiosks or custom asset types.

Location

Each retail location is mapped by GPS. Each device's assigned location, and any movement, is tracked as inspections happen.

Guided inspection

Step-by-step inspection with reference photos, simple enough for any employee to perform consistently.

History and schedule

When every device was last inspected, by whom, and what is due or overdue next.

Policy and training

Just-in-time policy and training in the app, so inspectors know the procedure before they inspect.

Review and reporting

Inspection results available for review right away, flagged devices, and reports for your assessor.

Web portal

- Account and user administration
- Locations and device inventory
- Inspection review and flagged devices
- Inspection schedules
- Policy and training
- Reports

Any current browser on a computer or tablet.

Mobile app

- Guided inspections
- Reference photos
- Flag suspected tampering
- Policy and training acknowledgment
- Due and overdue devices by location

iPhone with iOS 17 or later, or Android 8.0 or later, with a camera and a Wi-Fi or data connection.

Pricing

A monthly subscription per device, from $1.69 to $2.89 a device depending on how many you inspect, with unlimited users, locations and inspections. Prepaid terms save up to 30%. There is no hardware to buy.

Free 30-day trial. No credit card and no feature limits.

In use

Customers have completed 261K+ inspections across 2,000+ locations with SpotSkim.

> "Using a solution such as SpotSkim, configured as recommended by the vendor, will ensure compliance for PCI DSS requirement 9.9."
>
> Coalfire Systems, QSA, in its independent review of SpotSkim under PCI DSS v3

About Termtegrity

Termtegrity, Inc. makes SpotSkim. It helps merchants protect their businesses and their customers' card data by keeping their point-of-sale devices inspected, inventoried and documented.
